

Printing Instructions for Tile Style Coloring Pages

Hello, amazing colorists! 🎨 We're pumped you picked our tile-style coloring pages. To make sure you're thrilled with the end result, follow these simple steps.

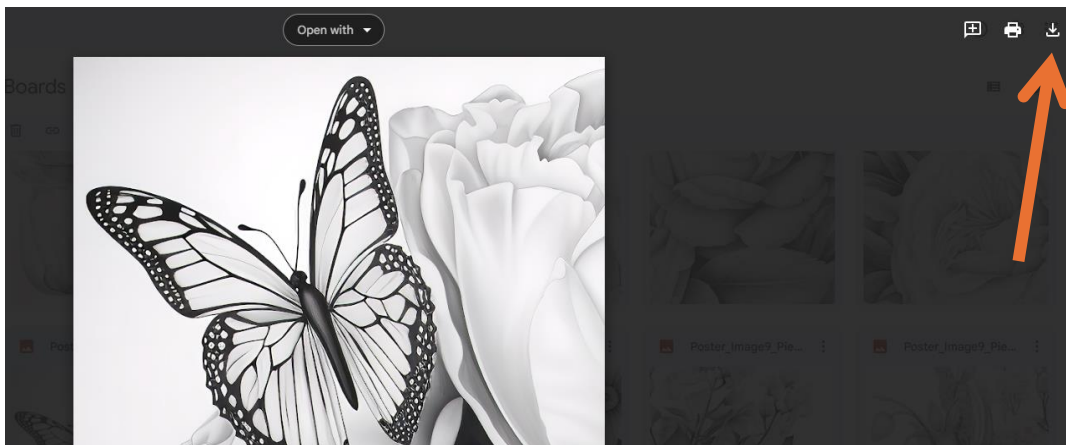

Step 1. Open the Google Drive folder with your coloring page TILE POSTERS BOARDS.

Step 2. Open each quarter tile and hit download. Please don't try printing the quarter tiles before downloading as quarters will not align with one another.

All the Quarter Tiles are named as Poster, **Image Number** and **Piece Number** (1,2,3 or 4)

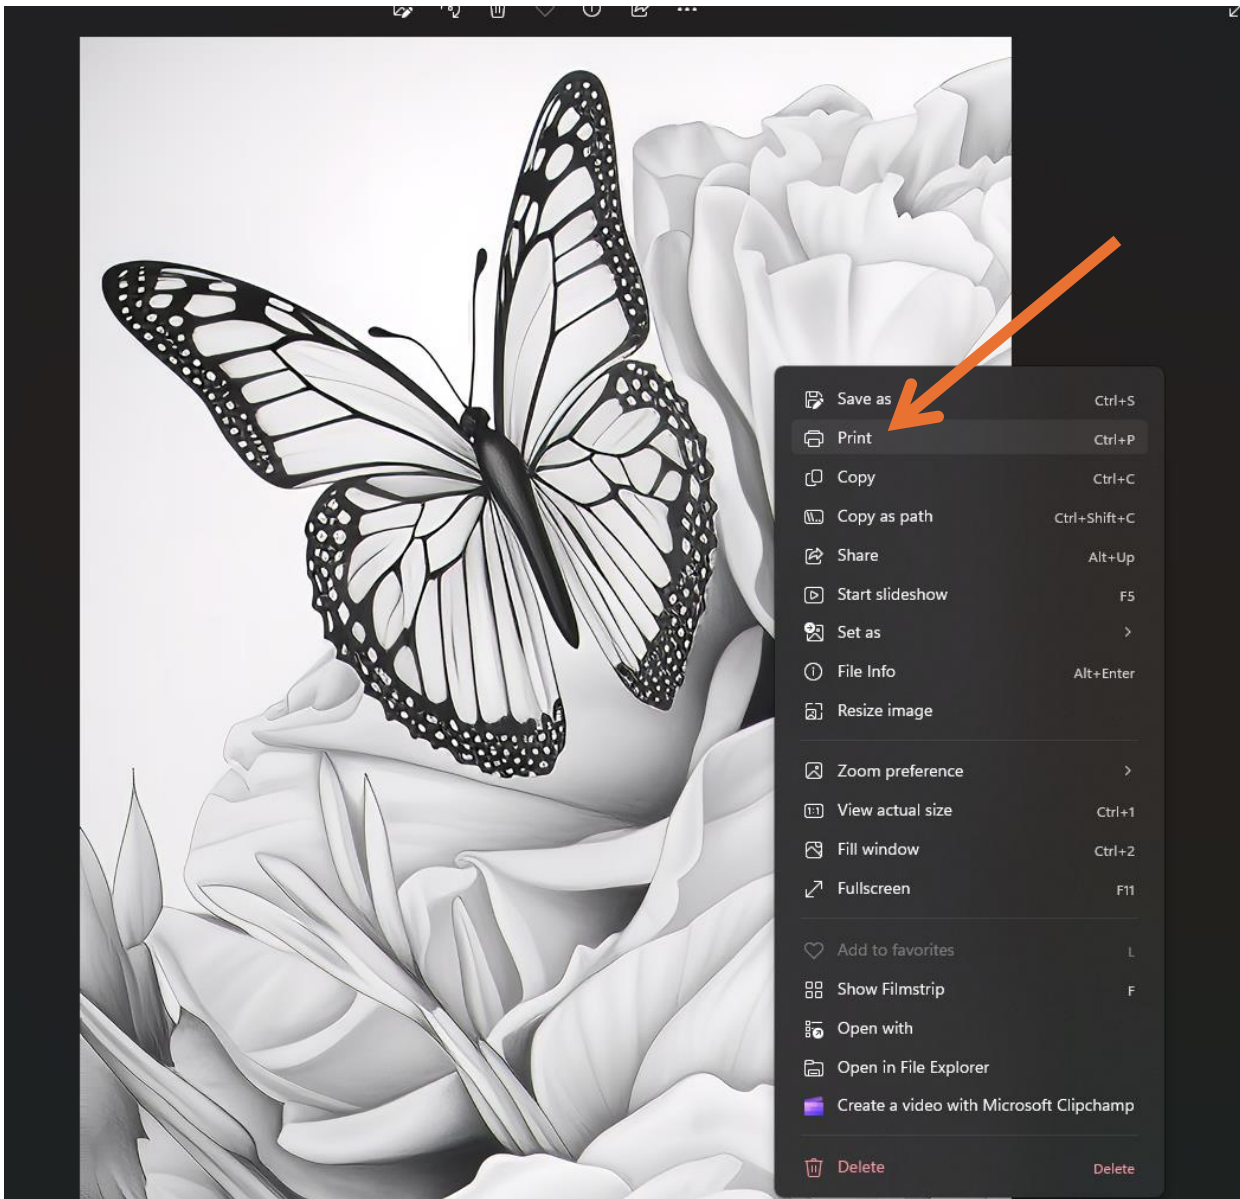

Example: Poster_Image3_Piece1 / Poster_Image3_Piece2 / Poster_Image3_Piece3 / Poster_Image3_Piece4 are all part of the same Tile Poster Image.

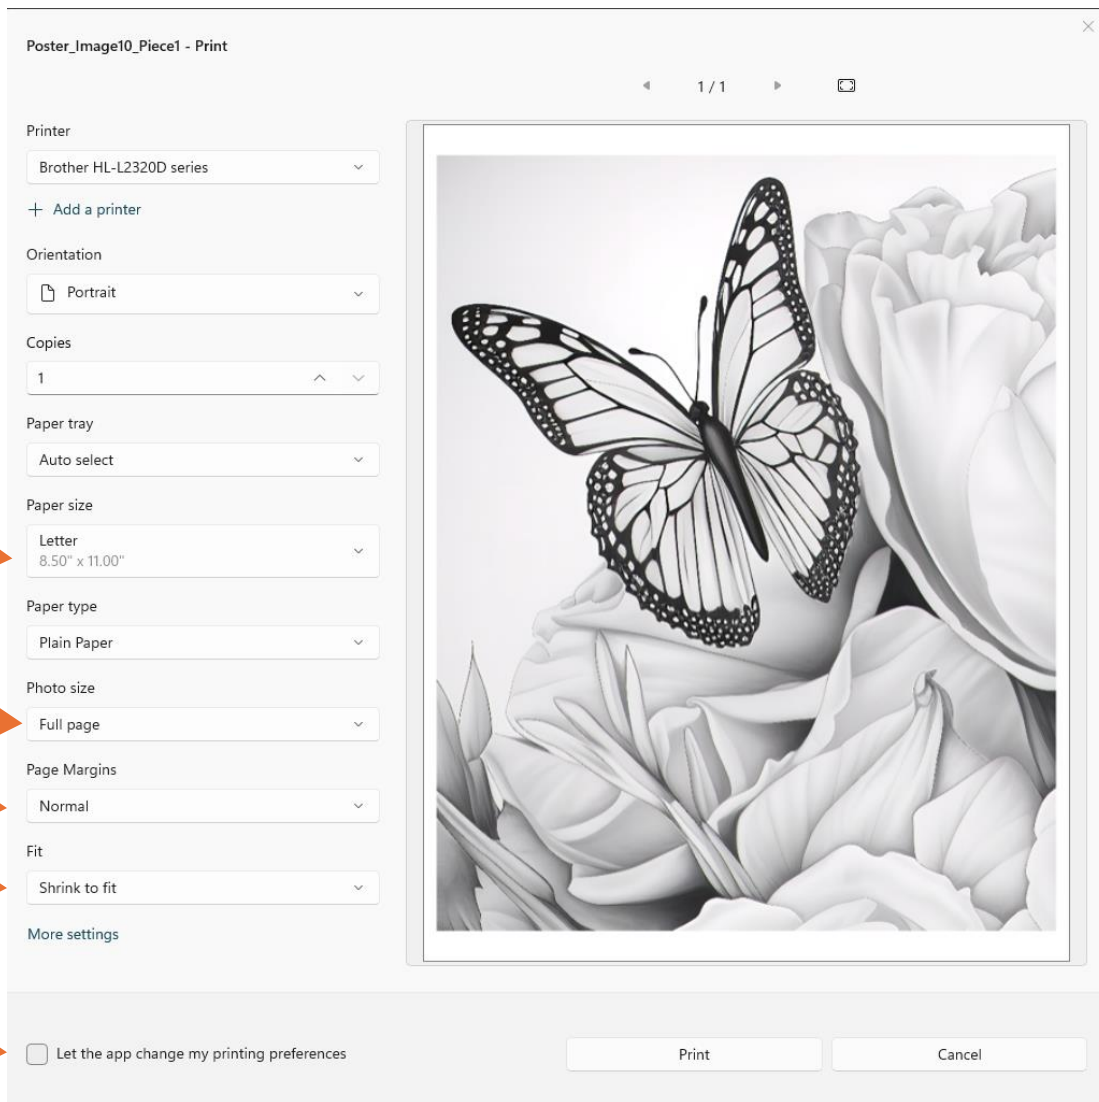

Step 3. After downloading, open each one of the image files and hit print.

There are several ways to print a file. Here is one:

Click with the mouse right button and hit PRINT

Step 4: Print Settings (VERY IMPORTANT)

1. **Paper Size: 'Letter'** or whichever size you have. Usually in the USA Letter size is the most common and A4 is the most common in the EU
2. **Photo Size: 'Full Page'**
3. **Page Margins: 'Normal'**
4. **Fit: 'Shrink to Fit'**
💡 Super important! Keeps everything aligned. 💡
5. **Uncheck 'Let the app change my printing preferences'**
Hit 'Print' to get rolling.

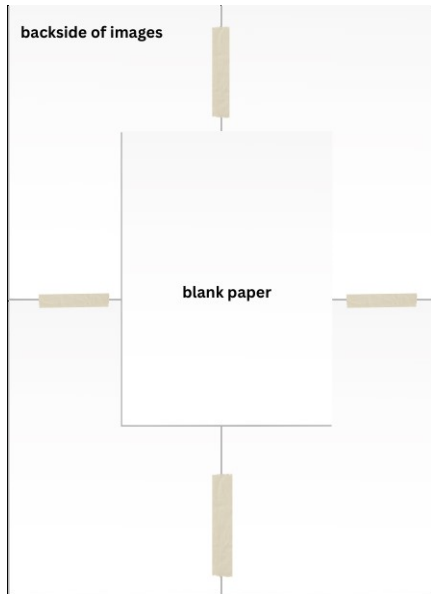

Step 5: Put It All Together

Snip away the margins using scissors or a paper trimmer.

A few ideas to put it together (**before or after coloring**)

1. **Option 1: Tape the back** of the pages so they align perfectly..
2. **Option 2: Glue the quarters** onto a blank sheet of paper.

Or you can do a mix of both:

Step 5: Get Coloring!

1. **Unleash your creativity and make your masterpiece!**

Bonus: Make It Last 🌞 (adults only)

1. **After coloring, spray a glossy or matte craft spray** over your assembled and colored page to give it that final touch and make it last.
